## Verse 2

Now I walk out in the morning  
The sunlight on my face  
I hear that voice calling me  
Come out and play  
My brothers and sisters and all my friends  
We've all gone our separate ways  
Here I am again, dreaming of when  
We were children then

## Chorus 2

We were the children of the sixties  
Children fair and light  
Children of our country  
Trying to put things right  
Never knowing as we were growing  
That we could lose it all overnight  
Way back when we were innocent friends

## Coda
