**Verse 2**

Moon above cold earth below  
None can hold the restless soul

The starry sky spinning round  
Time passes by without a sound

In the silent night like a dream  
In second sight she comes to me

**Verse 3**

Reaching out into space  
I cry out loud to see your face

Without your love I can't live  
All I have I would give

To find a way to be saved  
From the fate of the grave
